Wiley-Interscience. Hardcover. Condition: New. 600 pages. Dimensions: 9.3in. x 6.2in. x 1.4in. Project management is a system originally developed within the construction industry for controlling schedules, costs, and specifications of large multitask projects. In recent years, manufacturers have discovered that project managements time-tested techniques dovetail neatly with the current thinking on quality control and management in a highly competitive global marketplace. The system has been increasingly recognized for its suitability in the manufacturing process and is now applied in virtually every area of production. One of the foremost proponents of this trend is Adedeji Badiru, an internationally recognized authority on project management, whose books have helped thousands of companies adapt the system to their particular needs. This completely revised Second Edition of Badirus breakthrough publication, *Project Management in Manufacturing and High Technology Operations*, focuses on the dramatic increase in the use of high-tech machinery in industrial operations, and seamlessly integrates high-tech themes into a general discussion of project management. An introductory chapter on manufacturing analysis investigates how the latest concepts and techniques of project management are applied to manufacturing. The main body of the book offers a wealth of new material, including discussions of learning curve analysis, basic models for forecasting and inventory control, economic analysis of manufacturing, techniques for data analysis, and the application of expert systems. The chapter on computer applications in project management is completely revised and updated to reflect the enormous strides taken in this area in recent years. This book presents an up-to-date, practical approach to project management in manufacturing. Written by a pioneer in the application of project management to the manufacturing industries, this revised and expanded Second Edition of *Project Management in Manufacturing and High Technology Operations* reflects the increased use of high-tech machinery in industrial operations and the trends of recent years to...
