LOCAL ENTROPY THEORY OF A RANDOM DYNAMICAL SYSTEM (PAPERBACK)

American Mathematical Society, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. In this paper the authors extend the notion of a continuous bundle random dynamical system to the setting where the action of R or N is replaced by the action of an infinite countable discrete amenable group.Given such a system, and a monotone sub-additive invariant family of random continuous functions, they introduce the concept of local fiber topological pressure and establish an associated variational principle,...
