Mary grew up and attended college in Montgomery County, a wealthy suburb of Philadelphia, Pennsylvania. In her diary entries, she describes sexual experiences and adventures within hookup culture from age 17 through graduate school. In an attempt to escape her chaotic home life Mary found the idea of what higher education purposed to offer very appealing, although she realized at the end of the summer before college began what she really wanted was to marry young and have a lot of children which didn't seem to be supported by many educational institutions at the time. Mary was told by her stalker to call her family and tell them she would be doing a summer fellowship and living on campus for the summer. All the administration staff at her college readily believed her stalker was her father because he got her incompletes for the semester. He also acted as her father at the hospital because her stalker had a camera in Mary's dorm room and he took her to the hospital...
