Reviews

This ebook is worth acquiring. Better then never, though i am quite late in start reading this one. You will not truly feel monotony at at any time of your own time (that's what catalogues are for about if you ask me).

As a substitute for mother s milk my experience has led me to prefer modified cow s milk to any of the prepared foods. It is not enough to simply direct the attendant to mix so much milk and other ingredients together and give so much of it at such intervals, but she should be instructed to carefully examine every stool, and the moment any departure from normal occurs to report, for the condition of the stool is the most important indication as to the suitability of the food. If the stool is not exactly normal a search should be made for the cause and the food modified accordingly. In addition to the food infants should be given plenty of pure fresh water, an ounce or two being given occasionally between the nourishment periods. The personal hygiene does not receive the attention generally that should be given to it in the care of young children. The daily bath should be given with religious regularity, and some of our leading podiatrists advise allowing the child to play in a bathtub partly full of hie-warm water for a few minutes in connection with the bath. As to clothes, most babies are made uncomfortable by being dressed too heavily. Dresses should never be made long enough to interfere with the free action of the child s feet, and only of sufficient weight to insure against chill. On hot days it is well to remove...
