Saving the World: Chen Hongmou and Elite Consciousness in Eighteenth-Century China (Paperback)

By William T. Rowe

Stanford University Press, United States, 2002. Paperback. Condition: New. Language: English . Brand New Book. Chen Hongmou (1696-1771) was arguably the most influential Chinese official of the eighteenth century and unquestionably its most celebrated field administrator. He served as governor-general, governor, or in lesser provincial-level posts in more than a dozen provinces, achieving after his death cult status as a model official. In this magisterial study, the author draws on Chen's life and career to answer a range of questions: What did mid-Qing bureaucrats think they were doing? How did they conceive the universe and their society, what did they see as their potential to save the world, and what would the world, properly saved, be like? The answers to these questions are important not only because vast numbers of people were subject to these officials' governance, but because the verdict of their successors was that they did their jobs remarkably well and should be emulated. Three persistent tensions in elite consciousness focus the author's investigation. First, the elite adhered to the fundamentalist moral dictates of Song neo-Confucian orthodoxy at the same time that a new valuation of pragmatic, technocratic prowess abhorrent to the moral tradition emerged. Second,...
