TRANSMISSION FLUCTUATION CORRELATION SPECTROMETRY: CHARACTERIZATION OF PARTICLE SUSPENSIONS AND FLOW STRUCTURES

Cuvillier Verlag Okt 2007, 2007. Taschenbuch. Condition: Neu. Neuware - When a beam of light falls upon a flowing particle suspension, the transmitted light intensity fluctuates temporally, depending on the beam diameter and the properties of particle systems. In this thesis a new approach called transmission fluctuation correlation spectrometry (TFCS), including the autocorrelation technique (TFS-AC) and spatial correlation technique (TFS-SC), has been developed in detail and applied to characterize the flowing particle suspensions and flow structures. In view of the concentration...

Reviews

These kinds of publication is every little thing and helped me searching ahead of time and much more. It can be writter in simple words and never difficult to understand. I am very easily could get a delight of looking at a created ebook.

-- **Mckenna Marquardt MD**

This ebook is wonderful. I could comprehended every thing out of this created e ebook. I am just effortlessly can get a satisfaction of reading a created pdf.

-- **Federico Nolan**
