Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Zebra mussels are prolific alien invaders that have rapidly become established in waters of the eastern United States and Canada. These natives of the Black, Caspian, Azov and Aral Sea drainage basins were first discovered in Lake St. Clair near Detroit, Michigan, in 1988. By 1991, they had spread throughout the Great Lakes basin and are now established throughout the Mississippi River basin and are spreading west into Oklahoma. Except for Oklahoma, zebra mussels have not been detected in open waters of the West. However, without effective prevention measures, their invasion into the West is a real and imminent possibility.
