FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Carver s Chiropractic Analysis of Chiropractic Principles as Applied to Pathology, Relatology, Symptomology and Diagnosis, Vol. 2 of 2 In this attempt I have had nothing to guide me, except the limited treatise on symptomology as I wrote it for the first edition, which was enlarged considerably in the second edition of The Analysis. In producing this book, I have tried to keep away from the therapeutic lines and methods of discussion as much as possible, and it was for that reason I used the word Symptomology, instead of that cumbersome and, to me, meaningless one, Symptomatology, almost exclusively used by therapists. I start with the fact, that the symptoms of relation are the expressions of health, and that the symptoms of disrelation are the expressions of disease, and carry this fundamental to its deductive details. It has been necessary to introduce some very unusual propositions into this work, but it must be remembered that the science of Chiropractic is new, cardinal and very unusual.
