Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Observations on Limes, Calcareous Cements, Mortars, Stuccos and Concrete, and on Puzzolanas, Natural and Artificial: Together With Rules Deduced From Numerous Experiments for Making an Artificial Water Cement, Equal in Efficiency to the Best Natural Cements of England, Improperly Termed Roman Cements; And an Abstract of the Opinions of Former Authors on the Same Subject As the whole of the opinions stated in this Treatise, were deduced from personal observation, or from the successive experiments alluded to, with the exception of those founded on or corroborated by some important facts extracted from a paper of Mr. Timperley, published in the first volume of the Transactions of the Institution of Civil Engineers; and as these experiments occupied so long a period of time, and the book was printed in portions, during the intervals between successive experiments, it cannot boast of such a methodical arrangement, as might have been adopted, had every experiment recorded in it been tried, before the first sheet was sent to press. Hence it was thought desirable, in order to compensate this want of arrangement by facility of reference, to make the Table of Contents more ample than usual, so as to form a sort of abridgement of the work itself, rather than a mere outline of the titles of the subjects discussed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
