Physiology Cases and Problems (4th Revised edition)

By Linda S. Costanzo

Lippincott Williams and Wilkins. Paperback. Book Condition: new. BRAND NEW, Physiology Cases and Problems (4th Revised edition), Linda S. Costanzo, "Physiology Cases and Problems, Fourth Edition" is a collection of carefully selected patient case studies that cover the clinically relevant physiology topics that first and second year medical students need to know for physiology coursework and for the USMLE Step 1. Organized by body system, the book presents cases studies with questions and problems, followed by complete explanations and solutions including diagrams, graphs, and charts. Students may use this book alone, in small groups, or as a complement to BRS Physiology. Either way, it is intended to be a dynamic, working book that challenges its users to think more critically about physiologic principles. This book includes a number of features to help students master the principles of physiology: 62 cases organized by body system to help students integrate material; several expanded cases, including myasthenia gravis, atrioventricular conduction block, carbon monoxide poisoning, peptic ulcer disease, galactorrhea and amenorrhea, and prolactinoma; 2 new cases on Chronic Renal Failure, Liver Failure and Hepatorenal Syndrome; new full-color interior, tables, and illustrations; within each case, questions are arranged sequentially so that they intentionally build upon...

Reviews

Most of these publication is the perfect ebook accessible. It is amongst the most awesome publication i have got read through. You wont truly feel monotony at whenever you want of the time (that's what catalogs are for regarding in the event you request me).

-- Prof. Edgar Kshlerin

It is easy in study safer to comprehend. It can be writter in basic phrases and never confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Emmitt Harber
