Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Uniform Crime Reports for the United States, 1970 In the last several years great strides have been made by law enforcement in developing and implementing statewide programs to collect meaningful crime statistics. The fbi is presently receiving Uniform Crime Reports data from central state sources in ten states and is assisting in the development of similar programs in an additional ten states for implementation in 1972. These programs are an integral part of central state systems designed to provide criminal justice information services. Statistical data on crime and the basic activities of the criminal justice agencies are essential to each state if it is to intelligently analyze the crime problem, plan for and evaluate the criminal justice response. Vital to the success of these state programs are adequate field staffs to assist local agencies by counseling them in proper records management and crime reporting practices. Administrative services of this kind provided by the state agency should include periodic audits since conclusions drawn and decisions made from the statistical information are only as valid as the reliability of the data base.
