Building a Police Force for the Good in Dr Congo. Questions That Still Haunt Reformers and Reform Beneficiaries (Paperback)

By Thierry Nlandu Mayamba

Nordic Africa Institute, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The police in DRC are indeed a permanent domestic risk. The lack of policy, service or management regime for the acquisition of equipment explains the deficient, dilapidated, obsolete and very often inappropriate equipment. Moreover, police units have very weak operational capacity and police officers lack self-confidence and pride in their profession. These shabbily dressed men and women in faded uniforms daily develop an indifferent attitude towards their profession and work in general. Inefficient and ineffective, the Congolese police force is wholly demoralised and unprofessional. This has negatively affected the relationship between police and population. It has led to the withdrawal of people's cooperation, a must for successful police work and for meeting people's expectations.
