Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, after the way I believe.

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. [...] Only a few years ago this earth was considered the real center of the universe; all the stars were supposed to revolve around this insignificant atom. The German mind, more than any other, has done away with this piece of egotism. Purbach and Mullerus, in the fifteenth century, contributed most to the advancement of astronomy in their day. To the latter, the world is indebted for the introduction of decimal fractions, which completed our arithmetical notation, and formed the second of the three steps by which, in modern times, the science of numbers has been so greatly improved; and yet, both of these men believed in the most childish absurdities, at least in enough of them, to die without their orthodoxy having ever been suspected. Next came the great Copernicus, and he stands at the head of the heroic thinkers of his time, who had the courage and the mental strength to break the chains of prejudice, custom, and authority, and to establish truth on the basis of experience, observation and reason. He removed the[.].
