

## Flash Techniques For Location Portraiture: Single and Multiple-Flash Lighting Techniques (Paperback)

By Alyn Stafford

AMHERST MEDIA, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. Small-flash photography has become widely popular because of its portability and affordability, and this book offers insights on mastering the use of small-unit, hot shoe-mounted flashes called flashguns. Demonstrating the various light modifiers, techniques, and setups designed for these small powerhouses of light, the book explores how to achieve creative results from working with a single flashgun, multiple flashguns, and colored filters, as well as making adjustments with the camera's white-balance settings. The guide lists the tools required for location-portrait photography and discusses different lighting setups--from shooting in direct sunlight to night and low-light photos--for various location-portrait situations, giving photographers the confidence to make lighting decisions to produce professional results.

### Reviews

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*

*This kind of book is every little thing and taught me to look ahead of time and a lot more. I am quite late in starting reading this one, but better than never. I found out this book from my dad and he encouraged this pdf to find out.*
