Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. NEW from the Author of the SHIFTED series Werewolves do not exist, or do they? Werewolves are myth, right? They can't exist, can they? Believe me when I tell you werewolves are very real. I have seen them, lived among them. They are not the beasts depicted in legend. The legends were wrong. They don't hunt humans. They don't crave our blood. They don't turn into mindless beasts with the full moon. Bullets silver or otherwise will kill them. They can change at will without the aid of the full moon. They are not bloodthirsty monsters, at least most of them aren't. More important than all of this is the fact that I seem to attract them like moths to a flame.
