THREE INDUSTRIAL NATIONS: AN INDUSTRIAL GEOGRAPHY OF ENGLAND, GERMANY, AND THE UNITED STATES (CLASSIC REPRINT)

[DOWNLOAD](#)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Three Industrial Nations: An Industrial Geography of England, Germany, and the United States Three Industrial Nations has been prepared for grammar grade pupils whose study of Geography in the intermediate classes has given them a sufficient basis for an understanding of the data herein contained. It assumes that man s industrial activity, growing out of his reaction on the earth s natural resources, is the chief subject of study in Geography, The book is, therefore, an elementary industrial text. During the last decade the public has asked that the schools lay stress on essentials, and that our courses prune away incidentals, seeing that the limitations of time and of the physical and mental powers of the child preclude the study of everything. Hence, instead of following the time-honored custom of treating all the corners of a continent, important and otherwise, in a single volume, three of the leading nations of the earth have been chosen. The selection of the United States as one of the three is self-evident. England and Germany have been chosen as the others not only on account of their industrial efficiency and importance, but also because of their close racial relations to our own country. Each has remarkable characteristics and each has accomplished much to be proud of. Great Britain has compelled the admiration of the world by its victorious, service-rendering invasion into every quarter of the globe. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
