Icon Books Ltd, United Kingdom, 2017. Paperback. Condition: New. 3rd edition. Language: English . Brand New Book. Medicine, anatomy, astronomy, mathematics and cosmology, science began with the Greeks, and Plato, Aristotle, Pythagoras, Archimedes and Hippocrates were amongst its stars. That man ever managed to develop a scientific attitude to the natural world at all is one of the true wonders of human thought. Eureka! shows how, free from intellectual and religious dogma, these early thinkers rejected myths and capricious gods and, in distinguishing between the natural and supernatural, effectively discovered nature. Andrew Gregory, Professor of History and Philosophy of Science at University College London, unravels the genesis of science in this fascinating exploration of the origins of Western civilisation, and our desire for a rational, legitimating system of the world.
