This classic work interprets Miyamoto Musashis famous Book of Five Rings specifically for the martial artist Miyamoto Musashi originally intended. It explains the underlying truths necessary for a full understanding of Musashis message for warriors. The result is an enthralling book on martial strategy that combines the instincts of the warrior with the philosophies of Zen Buddhism, Shintoism, Confucianism and Taoism. It is a crucial book for every martial artist to read and understand. Like the original, this book is divided into five sections. The Book of Earth lays the groundwork for anyone wishing to understand Musashis teachings; the Book of Water explains the warriors approach to strategy; the Book of Fire teaches fundamental fighting techniques based on the Earth and Water principles; the Book of Wind describes differences between Musashis own martial style and the styles of other fighting schools; while the Book of No-thing describes the way of nature as understood through an unthinking existing preconception. Famed martial artist Stephen Kaufman has translated this classic without the usual academic or commercial bias, driving straight into the heart of Musashis martial teachings and interpreting them for his fellow martial artists. The result is an enthralling combination of warrior wisdom and philosophical truths that Musashi offered to other warriors who wished to master the martial way of bushido.
