MICROBIAL CELLULASES

Microbial Cellulases

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Cellulase, multi-component refers to class glycosyl hydrolases (GHs) that contain three major types of enzymatic activities are found: (i) endoglucanases (ii) exoglucanase and (iii) -glucosidases (EC 3.2.1.21). Cellulases are the enzymes which hydrolysis cellulosic biomass and are being produced by the microorganisms grown over cellulosic matters. Cellulase is an important enzyme which can be obtained from cheap agro wastes by using submerged fermentation and solid state fermentation. Cellulases have attracted much interest...

Reviews

I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
