Thieme Medical Publishers, UK, 2005. Hardcover. Condition: New. First Edition. 866 Pages. Slipcase is a little marked. The new edition of Valvassori's fabulously successful Imaging of the Head and Neck has been completely updated to cover recent advances in the field. Key features include: -Organization according to anatomic regions -Extensive illustrations to help the reader distinguish between normal and pathologic findings -Imaging findings correlated to sections from cadavers -Extended chapter on MRI and MRA techniques in the temporal bone -New chapter on the orbit and globe -New material on the anatomy and pathology of the paranasal sinuses for functional endoscopic surgery -State-of-the-art approaches to neck pathology It is an excellent reference book for both experienced practitioners and residents. Book Description: The new edition of Valvassori's fabulously successful "Imaging of the Head and Neck" has been completely updated to cover recent advances in the field. Key features include: -Organization according to anatomic regions -Extensive illustrations to help the reader distinguish between normal and pathologic findings -Imaging findings correlated to sections from cadavers -Extended chapter on MRI and MRA techniques in the temporal bone -New chapter on the orbit and globe -New material on the anatomy and pathology of the paranasal sinuses for functional endoscopic surgery -State-of-the-art approaches to neck pathology It is an excellent reference book for both experienced practitioners and residents. : Review: There are few radiology textbooks that can be considered classics; "Imaging of the Head and Neck" is one. .Well organized.The illustrations are a strong feature of this work. This work is an excellent review of head and neck imaging that would be useful to neuroradiology fellows, otolaryngologists, neurosurgeons, skull-base surgeons, oncologists, and general radiologists whose practices include a sufficient number of head and neck cases.--RadiologyThe text is clear, reasonably concise, and well written. .State-of-the-art images.A comprehensive, encyclopedic...
