Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A Camelot of the Biomedical Sciences The Story of the Roche Institute of Molecular Biology The history of science began with wonder. Its foundation was endless curiosity about the world and people brave enough to ask, what if? How? And why? It began in rudimentary laboratories set up by wealthy men in basements and emptied rooms. The British Royal Academy gave it a formal experimental structure. And for almost two centuries it was the exclusive domain of those wealthy and educated people able to find the time and resources to conduct their experiments. To satisfy their own curiosity. The experimental laboratory is a relatively new invention, established mostly in universities before 1900. But laboratory science began growing with the realization that discoveries made in the lab could become valuable products. Edison proved those things discovered in laboratories had substantial commercial value. In the biomedical field two distinct industries came into creation: the prestigious laboratories and Universities where research was done to expand knowledge and commercial laboratories where it was done for profit. For decades, as the world's pharmaceutical industry developed and prospered...
