

Number Applications

By Erwin Herrick Schuyler

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. $246 \times 189 \text{ mm}$. Language: English . Brand New Book ****** Print on Demand ******. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1906 Excerpt: .7. The altitude of these figures is the perpendicular distance between their bases. 8. By fitting a piece of paper to the lateral surface of a prism or cylinder, and then unrolling it, it is seen to be a rectangle whose base is equal to the perimeter or circumference of the base, and whose altitude is equal to the altitude of the given figure. 9. It is evident that the volume of a cylinder 4 in. high is 4 times the volume of a cylinder 1 in. high. 10. If the diameter of the base is 3 in., the area of the base is.7854 x 9 = 7.0686 sq. in. 11. The volume of the portion of the cylinder 1 in. high is evidently 7.0686 cu. in. The total volume is 7.0686 cu. in. x 4 = 28.2744 cu. in. 12. Find the convex surface of...

Reviews

The ideal ebook i possibly study. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
