It's also become a whole lot more difficult, and the major advances with Flash MX are code based. If you're scared of the idea of code, but even more scared of missing out, this is the book for you. This is no simple re-write - with the help of friends of ED Flash guru Sham Bhangal, Foundation ActionScript has been re-written from beginning to end, with the addition of substantial new material to reflect the major changes brought about with Flash MX. If you've never coded in Flash, you're going to want to very soon. This book will make that desire reality, with fully worked examples and a chapter-by-chapter case study that turns into a fully fledged top ActionScript site by the end of the book. Book Info Written from beginning to end, with the addition of substantial new material to reflect the major changes brought about with Flash MX. Contains fully-worked examples and chapter-by-chapter case study. 500 pp. Deutsch.
