In its pages is presented subject-matter of vivid interest to the parent whose children are participating in the advantages of a liberal education; to the citizen concerned in the well-being of the community and the making of wise laws; and to the student of social history, in which the measures taken to provide education play so prominent a part. As the story unfolds, the reader is able to trace the gradual development of our far-reaching arrangements to provide all our children with the elements of a sound education, and those specially gifted with continued training up to the technical school and the University.
