Tompkins and Byrd is a compendium on the science and metaphysics of soil, agriculture, and the environment. Going beyond the rudiments of biology, the authors demonstrate that the inherent life force woven through all plants, stones, soil, water, and air is central to our survival, and our relationship to the soil is of vital importance to our future. You will not find this kind of valuable information in a textbook. It will change your life 422 pages Quote: A single microbe reaching maturity and dividing within less than half an hour, can, in the course of a single day, grow into 300 million more, and in another day to more than the number of human beings than have ever lived. 37 This item ships from multiple locations.
