By Miss Jenni Louise Rose Hampshire

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The winged horses are made of moonlight and are hidden all around us. They are gentle, friendly beasts and are usually found flying in pairs or threes, showing off their tricks to one another. This bonnie book of thirty-one illustrations will provide enjoyment for all ages. Winged horses, inspired by Pegasus, are shown in pairs, as individuals, as portraits, flying, both with and without intricate patterning. Each image has a blank back and empty space around the illustration, allowing the pictures to be torn out and framed if wished. Recurring themes include stars, moons, and feathers. This book was created by an artist who was once a horse-mad girl and who has been scribbling images of horses for over thirty years. Each picture has been created with love and admiration for these beautiful beasts. We recommend coloured pencils, crayons, metallic pens, indian ink, and watercolours or other paints used slightly more dryly than normal. Whatever you are using, it is best to place a sheet of thick paper or card beneath your image as you work, to protect the following page...
