

Physical Properties of Grease Mohair and Related Mill Products: Spring and Fall Clips (Classic Reprint) (Paperback)

By Elroy M Pohle

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Physical Properties of Grease Mohair and Related Mill Products: Spring and Fall Clips Mohair - the fiber from the Angora goat has certain physical and chemical properties which are basic to its commercial value as a textile fiber. The average fiber diameter is the major consideration as this characteristic determines, to a large degree, the type of fabric or product for which the mohair can be used. Other characteristics affecting grease mohair value are its length, its yield of clean mohair, and its strength, luster, color, and character. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
