## Malnutrition and School Feeding (Classic Reprint) (Paperback)

By John Charles Gebhart

Forgotten Books, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Malnutrition and School Feeding One of the most conspicuous by-products of the public-school system is a quickened interest in the physical welfare of the school child. Practically the entire population of the Nation between the ages of 5 and 15 is gathered together for from 6 to 10 months of the year into a great community to receive public instruction. This segregation of the youth of the Nation is beset, from the point of view of public health, with advantages and disadvantages. The chief disadvantages are that the close personal contact of so many individuals facilitates the spread of contagious disease and that the educational process itself places a severe physical strain on growing children. The chief advantages are that it facilitates the regulation of health conditions and that it brings to the attention of the proper authorities physically subnormal children who would otherwise remain undiscovered. Malnutrition is a term used to indicate a general condition of less than normal physical and mental vigor (25Q.) While the causes of malnutrition are many, incorrect or inadequate diet appears all too often as...
