ASIAN DEVELOPMENT BANK, Philippines, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This study looks at the rapidly changing rural landscape in the People s Republic of China and how the private and public sectors can improve and promote logistics development. Logistics plays an important role in agricultural production and supply-chain management, ultimately enhancing food safety and quality. Improvements in rural logistics help farmers to harvest and market crops more efficiently; and by facilitating communication, they serve to expand the markets for agricultural products. While recognizing the rapidly changing rural landscape in the People s Republic of China, the distribution of goods is still impeded, and the quality of services poor. This study is part of the Asian Development Bank s initiative to support and promote the development of the agriculture sector and establish efficient rural-urban synergies. Read how the private and public sectors can improve and promote logistics development in rural areas.
