Good Crop / Bad Crop: Seed Politics and the Future of Food in Canada (Paperback)

By Devlin Kuyek

BETWEEN THE LINES, Canada, 2006. Paperback. Condition: New. Language: English . Brand New Book. IN RECENT YEARS Canadians have become more and more concerned about the origins of their food and the environmental impacts of pesticides in agriculture. What is less well known is that pesticide corporations such as Monsanto and Du Pont have bought their way into the seed industry and are taking control of what was once the exclusive domain of farmers. In Good Crop / Bad Crop, Devlin Kuyek deftly examines the economic and environmental background of the modern seed trade from a Canadian perspective. Historically seeds were viewed more as public goods than as commodities, and plant breeding objectives were widely shared by scientists, governments, and farmers. Now that approach is changing; seeds have become increasingly commodified, and plant breeding has become subject to corporate priorities. Farmers and citizens in Canada, Kuyek points out, need to heed the hard-won lessons from the developing world, where farmers greatly damaged by the much-heralded approaches of the Green Revolution are now taking steps to reclaim control over seed supplies, food security, and their futures. Reviews

This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You won't sense monotony at any time of your time (that's what catalogues are for relating to should you request me).
