Amethyst is a secret team of genetically enhanced humans which is Earth's greatest defensive weapon. Leading the team of super soldiers is Ember Wilson, a tough woman with a huge chip on her shoulder. Fighting evil is easy for her. Finding her heart is a whole other story. The team gets their name from the after effect of the Genesis Project which turned their eyes and even their blood purple. For decades, Earth has been ravaged by unpredictable weather which began to cause crops to fail. Most of the planet's food sources have deteriorated. Dr. Clayton Rudo has proclaimed he has the means to save the soil. He has created a weather machine to regulate and help replenish. But Ember knew the truth. He didn't want to save the planet. He wanted to control it. Amethyst destroyed the machine, but was placed in stasis. Two years later, Rudo recreated the device and has frozen Washington, DC. General Tom Blanchard brought Amethyst out of stasis to work with an elite Air Force team led by Major Liam Ross. Tensions between Ember and Liam rise as they butt heads. Can they work together before Earth is completely under ice? Will Ember resolve her heart? Can they save the Earth despite themselves? This item ships from multiple locations.
