

May Contain Graphic Material: Comic Books, Graphic Novels, and Film (Hardback)

By M. Keith Booker

ABC-CLIO, United States, 2007. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Since the first Superman film came to the screen in 1978, films adapted from comics have become increasingly important as a film form. But 1978 was also important because it was the year of release for Will Eisner's A Contract with God, and Other Stories, generally credited as the first long-form comic book to label itself a graphic novel. Since that time, advances in computer-generated special effects have significantly improved the ability of film to capture the style and action of comics, producing such hugely successful films as X-Men (2000) and Spider-Man (2002). Meanwhile, the genre of the graphic novel has greatly evolved as a form-especially through the works of people like Frank Miller and Alan Moore-taking comics in dramatically new and different directions, generally darker and more serious than conventional comics. Graphic novels have also formed the basis for less visually spectacular, but intelligent and thoughtful films such as Ghost World (2001) and American Splendor (2002). Booker surveys this important development in film history, tracking the movement to a more mature style in comics, and then a more mature style...

Reviews

Merely no words to explain. I really could comprehend everything out of this published e book. I found out this publication from my dad and i suggested this publication to learn.

-- Prof. Margarita Ledner PhD

This written pdf is fantastic. It normally is not going to expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.
