paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 220 Publisher: Chemical Industry Press Pub. Date :2010-02. book under non-physical basis of professional colleges and universities teaching the basic requirements of physical experiments. as well as school equipment. laboratory instruments and written in the actual situation. This book is divided into five chapters. Chapter I Introduction. focuses on the physical characteristics of experimental courses. requirements. error theory and data processing of the content. Chapter II the basic physics experiment instruments. introduces the instruments commonly used in physics experiments using the methods and precautions. Chapter III level physics experiments. including mechanical. thermal. electromagnetics. optics and modern physics. 13 pilot projects. 16 experimental subjects. Chapter two physics experiments. including mechanical. thermal. electromagnetics. optics and modern physics. 13 pilot projects. 19 experimental subjects. Chapter three physics experiments. including mechanical. thermal. electromagnetics. optics and modern physics. 14 pilot projects. 20 experimental subjects. Three in each level of physical experiments have verified the physical experiments and experimental design. comprehensive experiment. After a difficult physical test content and test skills improved over the previous one. the pilot project scheduling and teaching process reflects the gradually develop and improve students thinking skills test. This book can be applied as non-physical science and engineering colleges of higher professional reference books or teaching materials physics experiments. More Contents: Chapter 1 Introduction A physics experiment s status. role and tasks of two physics experiments to learn the characteristics and requirements of the three measurement error and data processing equipment chapter the basic physics experiments one commonly used experimental apparatus two thermal power electromagnetic experiments used three instruments. optical instruments commonly used in Chapter III of an experimental physics experiments Experiment 1 Experiment 2 measured the length...
