Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

Pearson Education/Pearson Power 0. Hardcover. Book Condition: New. First edition. Integrative Leadership is a holistic approach to leading oneself and others in a reflective, conscious, thoughtful and responsive way. The process of integration involves developing multiple perspectives, four domains of intelligence (physical, mental, emotional and spiritual) and three levels of awareness (personality, individuality, universality) that helps, build, through our power of choice, a stable foundation for personal, interpersonal and organizational success. Integrative Leadership is harmoniously and simultaneously walking the path of the mystic (inner journey) and the path of conventional leadership (outer journey) in every day life and work. It is a way of illuminating the path that would allow individuals to evolve in three ways: from individual contributors and team players to managers; from managers to effective leaders; and from effective leaders to Visionary, Integrative and Enlightened Leaders. Printed Pages: 400.
