## MEASUREMENT AND CALCULATION OF MULTICOMPONENT-DIFFUSION AND REACTION IN CATALYST PARTICLES, EFFECT OF THE CATALYST PORE STRUCTURE

Cuvillier Verlag Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 211x146x17 mm. Neuware - A realistic diffusion system, multi-component diffusion, accompanied by a relatively simple reaction, a single reaction with simple molecules, is investigated experimentally using commercial pellets at mild conditions. The motivation was to elucidate the effect of pore structure for simultaneous diffusion/reaction systems in general. The results can be used to investigate the multi-component interactions between different components, to determine an optimum pore structure and/or to check if the...

## Reviews

*This publication is indeed gripping and interesting. It can be filled with knowledge and wisdom You will not really feel monotony at anytime of your time (that's what catalogues are for regarding in the event you request me).*

-- **Prof. Muhammad Lesch MD**

*Here is the best publication i have go through right up until now. Better then never, though i am quite late in start reading this one. Its been developed in an remarkably basic way in fact it is simply right after i finished reading this pdf through which basically transformed me, change the way in my opinion.*

-- **Colin Bergnaum**
