

## Based on support vector machine algorithm for intrusion detection. Yunnan Nationalities University Academic Library Library Dr.

Filesize: 8.06 MB

### **Reviews**

*The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.*

*(Dr. Reta Murphy)*

## BASED ON SUPPORT VECTOR MACHINE ALGORITHM FOR INTRUSION DETECTION. YUNNAN NATIONALITIES UNIVERSITY ACADEMIC LIBRARY LIBRARY DR.

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 164 Publisher: Xi'an Jiaotong University Pub. Date :2011-08-01 version 1. Guyu compiled a support vector machine-based Intrusion Detection Algorithm. a systematic introduction to intrusion detection system. the basic concepts and detection technology. The core technology for intrusion detection - detection algorithm in-depth. systematic study. Mainly to solve the support vector machine in a small sample. nonlinear and high dimensional problems has the good performance to high-speed detection of intrusion. On this basis. the full account of the intrusion detection environment. a single point of failure problem. the collaboration of multiple detectors. the integration of learning. artificial immune system and other new technology into the intrusion detection environment. to improve detection accuracy and intrusion detection systems robustness. Based on support vector machines for intrusion detection algorithm for a computer. information science. communication technology infrastructure. the senior reader. suitable for network and information security. artificial intelligence. data mining researchers. and university computer and information science. communication and other senior undergraduate and graduate professional reference. Contents: Chapter 1 Intrusion Detection 1.1 Background 1.2-based computer security and computer security 1.2.1 key technology concept of common security threats 1.2.2 1.2.3 1.3 network security key technology intrusion detection technology development process outlined in 1.3.1 Intrusion Detection 1.3.2 General 1.3.3 intrusion detection model for anomaly detection and misuse detection Intrusion Detection trends 1.4 1.4.1 1.4.2 soft computing methods and data mining. machine learning methods of artificial immune systems 1.4.4 1.4.3 agent-based Detection System 1.5 Summary Chapter 2 2.1 support vector machine learning machine learning problems of the basic problems that 2.1.1 2.1.2 2.1.3 empirical risk minimization principle to minimize the risk and had experience in learning learning 2.2 2.2.1 Statistical Learning Theory process and the...
