Environment Reporters in the 21st Century

By David B. Sachsman

Transaction Publishers. Paperback. Book Condition: New. Paperback. 256 pages. Dimensions: 8.8in. x 5.9in. x 0.6in. Environment Reporters in the 21st Century is the story of a relatively new journalistic beat, environmental reporting. This book explores the development of the environmental beat as a specialty during the last thirty years. It also discusses broader trends within American journalism resulting from technological changes that challenge traditional mediums, especially newspapers and magazines. The book is divided into three parts. The first reviews the literature and explains the methodology. The second describes the results of the authors research. The third provides in-depth accounts of environment reporters at work. A final chapter puts the research in historical perspective, viewing it in terms of the economic decline of the newspaper business and of local television news. Journalists mediate a constant struggle among thousands of environmental activists, corporate public relations people, government officials, and scientists to shape environmental reporting. This volume tells the story of environmental reporting imaginatively and innovatively. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
