This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. There is a broad consensus that climate change presents the international community with a formidable challenge. Yet progress on all fronts- prevention, mitigation, and adaptation- has been slow. Ved P. Nanda finds an explanation for this disparity in the sharp divide between the developed and developing countries. Developing countries demand that major industrialized nations provide the necessary resources and technology to address climate change, while many developed countries seek firm commitments and timetables on action from the developing countries. The result is a stalemate. Climate Change and Environmental Ethics contains first-rate research and thinking from scholars from multiple disciplines- ethics, ecology, philosophy, economics, political science, history, and international law. What distinguishes this volume from recent work on climate change are two of its special features. One is the multi-disciplinary backgrounds of the scholars, their stellar experiences, and the wisdom with which they express not simply their philosophy and theory but also their suggestions for concrete, specific action in practical terms. The second is the special niche this...
