It provides an overview of the latest technological, regulatory, and market developments in the exchange industry and the common problems exchanges face; explains how these problems are being and can be addressed; and presents views ? from leading exchange professionals ? about how to move forward. Most significant, the ideas in the book will come directly from the world?s leading exchange professionals and customers.; - In May 2007, an extraordinary meeting took place in London's The Exchange Forum. Chief executives from many of the world's most important financial exchanges came together with senior executives from a wide array of global banking, trading, and investing firms, index providers, regulators, system suppliers, and key academics to discuss the rapidly changing business and technological environment in which exchanges function. The forum was an exclusive event, open only to the most senior-level individuals in the global exchanges community: those who run exchanges, who are clients of exchanges, who invest in exchanges, and who supply goods and services to exchanges. In presentations and panel discussions over two days, these experts explored the effect of shrinking margins as more instruments became exchange traded rather than OTC and the conflicts that creates. They shared what exchanges are doing today to respond to the challenges wrought by competition, globalization, and rapid technology advances. And they looked into the future and discussed the multi-asset, multi-currency, and multi-region trading that holds...
