RANDOM HOUSE, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. NEW YORK TIMES BESTSELLER - A roadmap to what lies ahead and the decisions we must make now to stave off the next global economic and financial crisis, from one of the world's most influential economic thinkers and the author of *When Markets Collide* Our current economic path is coming to an end. The signposts are all around us: sluggish growth, rising inequality, stubbornly high pockets of unemployment, and jittery financial markets, to name a few. Soon we will reach a fork in the road: One path leads to renewed growth, prosperity, and financial stability, the other to recession and market disorder. The future, critically, is not predestined. It is up to us to decide where we will go from here as households, investors, companies, and governments. Using a mix of insights from economics, finance, and behavioral science, this book gives us the tools we need to properly understand this turning...
