Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The book Climate Life is a manifestation of my frustration with trying to understand the facts about climate change and truly getting to the bottom of the climate crisis as so many climate scientists are calling it these days. No one can refute we have only one planet, at some point all water ends up being recycled, and climate has been changing since the beginning of time. The world ecosystem is in constant flux and there is nothing we can do to change this except try to better understand climate before enacting additional policy which could prove detrimental to the environment and our freedoms. An excerpt from a 1970 s article on global cooling went as far to mention . .melting the arctic ice cap by covering it with black soot or diverting arctic rivers. Does that sound like a sane solution to you? I ll let you be the judge. especially since an article in 2014 stated a climate scientist, correctly predicted back in 2000 that the Earth was entering a cooling phase. What are we to believe? Within this book you will find over 100 various excerpts from research articles, science journals, magazines, newspapers, and online media sources which will hopefully help you better understand what we are up against. You will also find timely quotes which may shed some light on the political ideology behind the messaging. Shortly after starting the process of organizing the articles and quotes for this project I quickly realized this is the type of book the Nazi s, National Socialists, would have chosen to burn during their 1930 s book burning campaign. The quotes mentioned in this book clearly challenge the current global agenda...
