Reviews

An extremely wonderful pdf with lucid and perfect explanations. I could possibly comprehend every little thing out of this created e pdf. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Janie Wilkinson)

GARDENING WITH PETER DOWDALL: THE IMPORTANCE OF THE NATURAL WORLD (HARDBACK)

Cork University Press, Ireland, 2010. Hardback. Condition: New. Richard Mills, Orlagh Murphy (illustrator). Language: English . Brand New Book. This book aims to share with readers the basic tools, techniques and principles of how to create and maintain a beautiful garden through Spring, Summer, Autumn and Winter. Straightforward, no-nonsense language and advice, along with simple photography showing the practicalities of gardening will advise budding gardeners on how to build their garden from a naked skeleton through to a beautifully garbed wonderland. The book will give people a greater understanding of the part that gardening and nature plays in their lives, in their health and in their general wellbeing. The book is separated into horticultural sections - architectural plants, evergreens, seasonal plants, contrast textural plants, herbs, fruit vegetables, and container gardening - so whether the reader is starting their garden from scratch, or merely looking for advice on annuals or the edible garden, they will find what they are looking for easily. Each section is covered from the point of view of choosing the right plant for the right space, the planting itself, and maintaining the plants through the seasons. Each section will also contain boxed-out sections, or sidebars that highlight interesting and useful information for the gardener, e.g. soil science, composting etc. Everything will be laid out in layman s terms and use easy to follow instruction. Each section will be prose - with any step by step detailing separated out into sidebars, boxes or offset paragraphs to give readers an easy to use reference. At the heart of this book lies a DIY ethic that applies not only to the garden, but also to living. We are intrinsically linked to plants and the natural world and the survival of plants and the natural world is intrinsically linked to us....
