Grub Street. Paperback. Book Condition: new. BRAND NEW, Vulcan Test Pilot: My Experiences in the Cockpit of a Cold War Icon, Tony Blackman, In 2007, a restored Avro Vulcan Mark 2 - XH558 - took to the skies to help commemorate the 25th anniversary of the Falklands conflict. To coincide with this the memoirs of one of its test pilots, Tony Blackman, was published to great acclaim. Now the first book about test flying this monumental delta-wing aircraft which dominated the history of the late 20th century is available in paperback. Tony is the ideal man to write such a tale as he flew no less than 105 of the 136 built, logging 850 flights at over 1,327 hours. His book describes in layman's terms what it was like to tame the first prototypes and to master the unusual characteristics necessitated by the Vulcan's shape. Although Tony puts the developments, demonstrations, incidents and accidents in their political and historical context, his story is a highly personal one. He explains how this awesome aircraft became a national treasure and captured the imagination of the whole country. His words, descriptions and hitherto largely unpublished photographs will make people feel as he did the excitement of handling such an incredibly powerful monster always in the knowledge that he had to be in complete charge all the time as the monster could and did bite back.
