SENEGAL: MALARIA OPERATIONAL PLAN FY 2015

[DOWNLOAD PDF](#)

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The President's Malaria Initiative (PMI) is a core component of the USG Foreign Assistance Strategy. PMI was launched in June 2005 as a five-year, \$1.2 billion initiative to rapidly scale up malaria prevention and treatment interventions and reduce malaria-related mortality by 50 in 15 high-burden countries in sub-Saharan Africa. With passage of the 2008 Lantos-Hyde Act, PMI was extended and a US Global Malaria Strategy was developed covering 2009-2014. The goal is now to reduce malaria-related mortality by 70 in the original 15 countries by the end of 2015. This will be achieved by reaching 85 coverage of the most vulnerable groups - children under five years of age and pregnant women - with proven preventive and therapeutic interventions, including artemisinin-based combination therapies (ACTs), insecticide-treated nets (ITNs), intermittent preventive treatment of pregnant women (IPTp), and indoor residual spraying (IRS). Development of a new six-year US Global Malaria Strategy 2015 - 2020 is underway. Senegal was selected as a PMI country in 2006. Large-scale implementation of ACTs and rapid diagnostic tests (RDTs) began in 2007 and progressed rapidly with support from PMI and other partners. ACTs and IPTp are now being used in all public health facilities nationwide, RDTs are used to confirm malaria cases at all levels of the health system (including the community level) and more than 7.3 million long-lasting insecticide-treated bed nets (LLINs) have been distributed using a universal coverage (UC) approach since 2010. Senegal's estimated population in 2016 will be approximately 14 million, with approximately 2.7 million children less than five years of age and 561,000 pregnant women. Malaria is still a major cause of morbidity and mortality and a high priority for...
