By Ovidiu Racorean

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In The News: Business Insider - Hedge fund researcher is working on a higher dimensional geometric model of the stock market International Business Times - How do you picture the stock market: a bunch of guys yelling at computer screens on Wall Street? A long list of figures in the paper? Or, perhaps, an ever-shifting, higher dimensional jewel? The latter vision is that of Ovidiu Racorean. The large public is, for the first time, invited to take a closer look through the keyhole of a hedge fund next generation research laboratory door. The image reader will discover is astonishing; no exaggeration. From simple to complex, the book presents familiar financial concepts like stocks, market index (Dow Jones Industrial Average), algorithmic trading, to name just a few, in a manner that have never been experienced before. The reader is taken to a journey throughout a financial mathematics world that it seems detached from the 22nd century science. Part of a so called underground quant researchers group, the author disclose throughout the pages of the book a picture of how quantum computer...
