By James M Lowrance

Createspace Independent Publishing Platform, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In the chapters of this book, I present information regarding common emotional conditions of neurosis and the less-common conditions of mental illness referred-to as psychosis. It is my intention to help define the differences between these two types of emotional and mental disorders but to also present the differences between common conditions of neurosis that are in the anxiety and depression categories. Subjects covered include descriptions of major depression, bipolar depression, schizophrenia and different types of major anxiety disorders. Signs, symptoms and diagnosis are discussed, as well as the treatments that are administered for these different types of disorders (i.e. pharmaceutical, psychiatric and natural therapies). It is my hope that this book will provide a good basic educational resource for readers wishing to learn about identifying and treating mental and emotional disorders. This book is not intended to be an extensive manual but is intended to contain information most often sought by laypersons on the subject. TABLE OF CONTENTS: CHAPTER ONE: Psychosis versus Common Anxiety and Depression CHAPTER TWO: A Description of Schizophrenia and Bipolar Disorder CHAPTER THREE: Confirming a...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
