ZOO-A-LOGICAL MATH: A MATHEMATICAL CHALLENGE BETWEEN HUMANS AND THE REST OF THE ANIMAL WORLD (PAPERBACK)

Dog Ear Publishing, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The work for this book began with a course I created and taught called Animal Behavior. I always knew that there was a strong magnetic bond between people and animals, but it wasn t until I began working on my curriculum that I truly found out how strong this bond really was. Millions of people, young and old, will visit zoos and aquariums each year. People stand in front of the animals, hypnotized by the every movement of the animal. People seemed to be looking not just at the animal, but almost as if they were looking inside these animals, wondering and questioning about the lives of some of our most distant animal relatives. In my classroom, I found the exact same kinds of responses. The discussions and questions of my students motivated me to share with you the lives and abilities of some of the most amazing living creatures in the world. People realize that humans are also animals, but the belief that we have superior intelligence and problem solving abilities makes us think we are far superior to all of the rest of our Animal World. As I began to learn more and lead my student discussions, I soon realized that maybe our intelligence was the only thing that we really did have in our superiority over the rest of our animal relatives. I began to look into the idea of comparing humans to animals in a wide variety of behaviors and activities, and soon a brand new window into the REAL world of animals began to open up. I soon realized that even the most insignificant animals in our world were really superstars when compared to humans. By...
