Publisher: China Environmental Science; 1 edition (March 1. 2006). The 10th Five-Year Plan period (2001-2005). the national environmental publicity and education work closely around the Center for Environmental and actively explore the publicity and education work regularity and characteristics. to overcome difficulties. to work hard to make publicity and educational efforts have made gratifying progress. Environmental publicity and education is a very practical work. Publicity and education work in the five years of practice. has accumulated a great deal of useful experience. become a valuable asset in the future to do this work. As a faithful record of the publicity and education work of the Tenth Five-Year period. environmental education and promotion literature compilation not only from a particular point of view a true reflection of the process of environmental publicity and education work in the past five years. also brings together the collective wisdom of the majority of publicity and education workers. As time goes by. these vivid literature is becoming a memorable history. Publicize the development of education. on the basis of practice summary of sublimation. The new era propaganda and education work need to establish the guidance of theory based on practice. We compile such a book. its purpose is to record history. sum up experience. a summary of the theory of past practice. Publicity and education work in the future from the current starting point move. Therefore. the documents collected in this book has become history. but they still live the life they not only record the past. but also point to the future. Contents: on the recognition of the Tenth Five-Year National environmental education and promotion of advanced collectives and workers decided some...
