World Bank Publications. Paperback. Condition: New. 340 pages. Dimensions: 8.9in. x 6.0in. x 0.7in. For the past two decades, experiments in decentralization and federalization have been developing in Africa, Asia, and the formerly communist states of Eastern Europe. Many of the powers previously in the hands of the central government or its deconcentrated structures have been transferred to lower government layers. Additionally, local governments are gradually emerging as development actors. Whatever the reasons for decentralization, the transfer of new functions to local governments can be substantive, at least in intent. The Political Economy of Decentralization in Sub-Saharan Africa offers a new policy-oriented implementation model, applied systematically in parallel in Burkina Faso, Ghana, Kenya, and Senegal. The book studies the individual countries and compares similar issues based on the same blueprint. The analysis is not intended to assess whether the chosen decentralization model is the right one, which does not exist. Rather, it examines decentralization achievements in specific national settings and compares those achievements with the announced objectives. The divergences revealed enable decision makers to choose appropriate directions for country reform. This method does not transpose textbook solutions to the states. The reference framework offers an analytical approach contextualized to each country...
