HYDROLOGICAL MODELLING WITH REMOTE SENSING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | DryMOD: A Dynamic Model of the Water Balance in Drylands at Policy-Relevant Scales | This work investigates the hydrological aspects of desertification in drylands through water balance modelling. Rainfall, as the main water input to dryland hydrology, is characterised by strong variability over small spatial and temporal scales and determines water available as surface runoff, groundwater recharge and soil moisture. Thus, the focus here is on improving the realism of rainfall representation...
